LIVING ROOM

Contemporary Meets Classic

Designer / **PERLA LICHI** / Perla Lichi Design

→ An ode to Fort Lauderdale's famous attribute, the beach, this living area combines coziness with the essentials of this city. The blue tones remind us of the ocean while the white adds contemporary style. The overall tone allows the views to take center stage.

PERLA LICHI SAYS: "The perfect Fort Lauderdale home needs a great water view, place for entertaining and a guest room that converts to casual living room (or other usable space) when there are no guests. The ideal Florida home should be designed in the client's 'dream home' style, be it contemporary, classic or somewhere in between."
